tile grouts

Ideal for Ceramic, Porcelain and Natural Stone Wall & Floor Tiles.

The BAL Grout Ranges

BAL Micromax2

Superfine, consistent, strong, flexible, world's first genuinely universal grout, for walls and floors, from 1mm to 20mm. Available in 10 striking shades with a range of colour matched silicone sealants.

Smooth, fine, consistent, versatile, anti-mould and sets within 2-3 hours.

BAL Microflex

Provides anti-fungal resistance and protection against black mould. Water and frost resistant, with built-in flexibility.

BAL Superflex & Superflex WJ

Extra flexibility and bond strength for interior and exterior use, including swimming pools and showers.

BAL Grout & Wide Joint

Classic grouts for most ceramic tiles, dry and wet environments, setting within 24 hours.

Every care has been taken to ensure true colour representation though printing limitations can cause colour variation.
The inclusion of BAL ADMIX GT1 will enhance the colour of the grout.

Microban®

BAL is the exclusive UK partner of Microban®, global leader for antimicrobial protection products. The Microban® technology is in-built to the grout formulation so it will never wash off or wear away.

This offers unrivalled protection for safe, long-lasting anti-fungal solutions capable of resisting unsightly mould growth, guaranteed for 10 years.

WITHOUT PROTECTION
Mould can grow on and around the grout.

WITH MICROBAN® ANTIMICROBIAL PROTECTION
Anti-fungal protection and an absence of mould demonstrating the effectiveness of Microban®.
