Discover the Full Benefits of BAL Rapid-Flex One and BAL Pourable One at www.bal-adhesives.com

Pourable One

Now also available

BAL Pourable One, is the new and improved alternative to BAL Stone & Tile PTB.

With all the same great benefits; BAL Pourable One is available as just a white adhesive – meaning that only one bag is needed – making it the perfect pourable solution for floor installations.

- **Rapid setting** – grout in 3 hours
- **Highly flexible** – use with underfloor and undertile heating
- **Internal or external** – perfect for large format and natural stone tiles in dry or wet environments
- **25mm bed depth** – in one application, ideal for patch repair and uncalibrated stone
- **White in colour** – for all installations

Rapid-Flex One

**Full on performance:
rapid on the straights,
smooth in the bends**

Rapid-Flex One

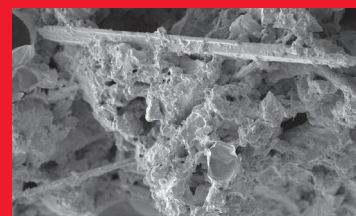

The number one all round high-performance S1 adhesive

Take it for a test drive today!

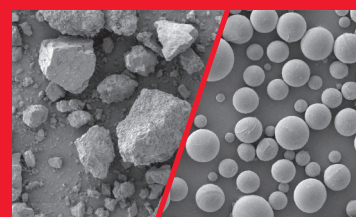

FST – enhanced performance

BAL Fibre Strand Technology utilises the use of specialist high quality fibres that deliver greater adhesion strength and performance even at extended open times.

Super smooth consistency

Easier to mix, simpler and faster to trowel thanks to improved consistency due to the use of new smooth sphere fillers (right) instead of more conventional fillers (left).

60 minutes working time

2x longer than most rapidsets. Enhanced working time means the adhesive will last longer mixed in the bucket, meaning you can confidently have bigger mixes for speed and suffer less waste.

30 minutes open time

3x longer than most other rapidsets. Enhanced open time means you can tile larger areas and adjust tiles easier and for longer, without fear the adhesive will skim over, aiding faster work and perfect results.

Super flexible

The S1 adhesive is both deformable and flexible. BAL Rapid-Flex One is suitable for applications with limited movement such as underfloor heating or highly trafficked areas.

One for all

White in colour, meaning that only one bag is needed. Whether you're tiling with natural stone, ceramic or porcelain tiles, BAL Rapid-Flex One is the perfect adhesive.

25-year guarantee

A market-leading written guarantee. BAL Rapid-Flex One won't let you down, giving you peace of mind your tiling will last the test of time.

The Fast Finish

Ready to grout after only 3 hours, allowing fast track project completion. Get your job done and onto your next project in double quick time!
