Total Support

Fixers and contractors can rely on BAL for expert advice every step of the way.

BAL's free Technical Advisory Service can be trusted to come up with a solution whenever it is needed.

If you require a Specification, BAL's Specification Support Team can provide free written M20/M40 NBS specifications plus full project advisory from start to finish – ensuring your tiling projects run smoothly.

Plus, we have a Training and Technical Support Team that can offer on-site consultancy, training and advice for your project. As ex-fixers themselves, they are perfectly placed to answer any of your queries, whether it is product related or general tiling advice.

Full System Solution

Whatever the project, BAL can provide a full system for tiling including:

- Waterproofing
- Levelling
- Preparation – including uncoupling
- Adhesives
- Grouts
- Sealants
- External Tiling Systems

25 Year Guarantee

BAL products won't let you down. That is why all our products come with a market-leading 25-year written guarantee. From start to finish BAL is guaranteed to deliver perfect results.

Micromax3 ECO

performance.
control.
sustainability.

BAL Micromax3 ECO is the new generation of Micromax grouts, with further enhanced product performance, improved useability and added eco-benefits.

BAL Micromax3 ECO grout provides everything an installer needs, for an easy application on any job, with a perfect finish guaranteed.

With an even longer-lasting and improved Microban® antimicrobial protection providing non-hazardous protection against black mould and mildew, as well as an efflorescence-free formulation and locked-in colour consistency, Micromax3 ECO provides the ultimate long-lasting finish for every tiling project.

Maintaining all the benefits of the market-leading Micromax2 range, this new generation technology provides even higher performance, even greater control – including easier clean-off; even on textured tiles and less haze after initial clean-off – plus the highest levels of sustainability.

MICROBAN®

Microban® is a registered trademark of Microban Products Company.

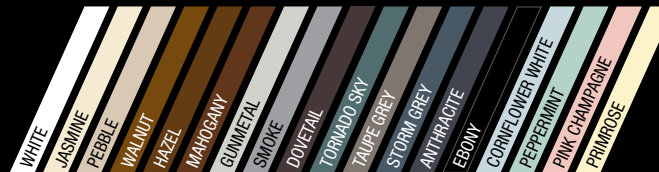

bal-adhesives.com

 @BALtiling

standout performance everytime.

Enhanced product performance, going above and beyond Micromax2!

- ✓ Improved, longer-lasting Microban® antimicrobial protection against black mould and mildew
- ✓ Suitability for fully immersed areas including swimming pools
- ✓ Improved anti-shrinkage and anti-cracking formulation; for perfect joints, even up to 30mm
- ✓ Efflorescence-free formulation to avoid any patchy discolouration
- ✓ Rapid-drying technology – sets in 2 to 3 hours for a faster finish
- ✓ Full range of colour tones, with a complementary range of colour-matched sealants

Across the UK, the range is available in 36 contrasting or complementary colour tones, with a range of matching silicones.

greater control, guaranteed results.

Advanced technology for even more control when grouting, making application simple.

- ✓ Easier application and clean off, even on textured tiles: with smooth fillers and significantly less haze after initial clean-off, ensuring perfect grout lines
- ✓ Lower dust formulation for less mess on-site and improved installer health
- ✓ Rapid-hardening chemistry to ensure the water is maintained within the grout, virtually eliminating the risk of water staining, even on natural stone
- ✓ Locked-in colour consistency for seamless tones with colour pigments fully pre-blended into the product
- ✓ Suitable for all tile types on floors and walls
- ✓ 25-year warranty for perfect long-lasting results

BAL Micromax3 ECO has significantly less haze after application making clean-off even easier.
