

BAL Micromax Grout-Effect Sealants

For perimeter or movement joints, the unique matt texture provides a seamless transition from grout to silicone.

Guaranteed Performance

BAL Micromax Grout-Effect Sealants are covered by our 25-Year Written Guarantee – this means you can trust our products to be free from manufacturing defects and to be fit for use when used correctly as per our instructions and technical data and good working practice.

With our 25-Year Written Guarantee there is no confusion – it's one guarantee for all our internal-use products – whether used for domestic or commercial purposes!

With BAL Micromax Grout-Effect Sealants you're not just tiling, you're installing consistency!

You're installing value

BAL provides multiple award-winning products, industry-firsts and trademarked technologies. This means BAL products provide better, long-lasting results for clients – with easier, more efficient and faster installations for you.

More than that – when you install BAL, you are also installing as part of our team. Call for leading technical guidance, project support and the latest industry standards. Get nationwide technical support in-the-field with free training, site-tests and immediate problem-solving and advice.

Then, relax. Your work is guaranteed with a 25-year BAL warranty – now just cash-in through GivBax Rewards.

You're not just installing the BAL product in the bag or bucket – but everything else that BAL provides too.

Full System Solution

Whatever the project, BAL can provide a full system for tiling including:

- Waterproofing
- Levelling
- Preparation – including uncoupling
- Adhesives
- Grouts
- Sealants
- External Tiling Systems

You're installing consistency.

**With a unique, matt,
grout-like finish to provide
a seamless joint,
you're installing
consistency.**

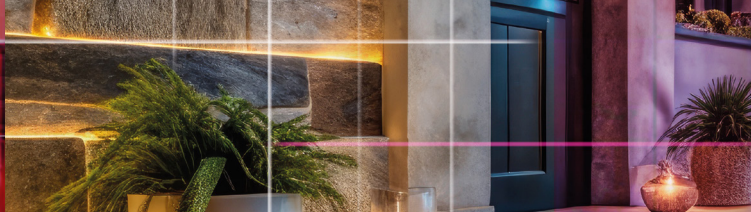

With BAL Grout-Effect Sealants you're installing a new generation of sealants – formulated with unique technology to ensure you get a consistent finish to match your grout joint.

BAL Micromax Grout-Effect Sealant provide a textured, matt-finish; meaning they provide a seamless and consistent transition next to our leading grouts – specifically colour-matched to our BAL Micromax3 ECO and BAL Absolute Grout ranges.

BAL Micromax Grout-Effect Sealants provide major benefits over other sealants:

- ✓ No more shiny, high-gloss silicone
- ✓ Seamless colour and texture match with BAL Micromax3 ECO and BAL Absolute Grout
- ✓ Long-lasting Microban® antimicrobial protection against black mould – provides protection for hygiene areas
- ✓ For perimeter and movement joints – even in high-traffic areas
- ✓ Waterproof with excellent adhesion: perfect for sealing between tiles and other surfaces including sanitary, acrylic, fibreglass, glass, glazed tiles, porcelain and painted surfaces
- ✓ Suitable for dry or wet areas, in interior and exterior environments

Find out more

The perfect combination

BAL Micromax Grout-Effect Sealant and our BAL Micromax3 ECO provide the leading solution for the perfect finish for tiling, with over 20 different colour options to suit every design.

Used together, they provide a uniform finish in colour AND texture, across all joints; whether they are grouted tile joints – sealed perimeter joints – or soft movement joints – internally or externally.

Waterproof with excellent adhesion, BAL Grout-Effect Sealants are perfect for sealing between tiles and other surfaces including sanitaryware, acrylic, fibreglass, glass, glazed tiles, porcelain and painted surfaces in dry and wet interior and exterior environments.

Let's get to it.

A matt texture – just like a grout

With BAL Micromax Grout-Effect Sealant, you're installing a high-performance sealant with a matt, textured finish – no more shiny, high gloss silicone that stands out against existing tiles and grout!

BAL Micromax Grout-Effect Sealant provides seamless colour and crucially TEXTURE match with BAL Micromax3 ECO.

Perfect for internal and external environments, it can be used for perimeter and movement joints – even in high traffic areas. Perfect where seamless floors are required.

What's more, it can be used up against drain grates for a consistent finish in external patios and terrace areas.

Easy Application

With BAL Micromax Grout-Effect Sealant, you're installing an easy-to-use sealant that adheres to most backgrounds.

For movement joints or most applications, use in 6mm x 6mm cross sections. Once applied, the surface of the sealant should be tooled within 15 minutes of application.

An Important Top Tip: The maximum degree of matt finish is achieved by smoothing down only once. Repeated smoothing of the silicone will reduce the matt effect.

To smooth down the silicone, use a wet silicone tool/spatula or similar. Recommended tools should be plastic or wood materials – metal tools should be avoided for best results.

Microban Anti-Mould Protection

With BAL Micromax Grout-Effect Sealant, you're installing with long-lasting Microban® antimicrobial protection. This protects against black mould and provides protection for hygiene areas – making BAL Micromax Grout-Effect Sealant perfect for bathrooms, showers, wetrooms, kitchens and more!

Microban works by being built into the sealant during the manufacturing process. It continuously disrupts the growth and reproduction of microorganisms, preventing stains, odours, and product degradation.
