BAL Micromax3 ECO

The perfect finish for your tiling.
Unique technology to make grouting easy in any install and provide that 'wow' feeling for years to come.

High Performance – Guaranteed

BAL Micromax3 ECO is covered by our 25-Year Written Guarantee – this means you can trust our products to be free from manufacturing defects and to be fit for use when used correctly as per our instructions and technical data and good working practice.

With our 25-Year Written Guarantee there is no confusion – it's one guarantee for all our internal-use products – whether used for domestic or commercial purposes!

With BAL Micromax3 ECO you're not just tiling, you're installing happiness!

BAL 25 YEAR 25 YEAR GUARANTEE

You're installing value

BAL provides multiple award-winning products, industry-firsts and trademarked technologies. This means BAL products provide better, long-lasting results for clients – with easier, more efficient and faster installations for you.

More than that – when you install BAL, you are also installing as part of our team. Call for leading technical guidance, project support and the latest industry standards. Get nationwide technical support in-the-field with free training, site-tests and immediate problem-solving and advice.

Then, relax. Your work is guaranteed with a 25-year BAL warranty – now just cash-in through GivBax Rewards.

You're not just installing the BAL product in the bag or bucket – but everything else that BAL provides too.

Full System Solution

Whatever the project, BAL can provide a full system for tiling including:

- **Waterproofing**
- **Levelling**
- **Preparation – including uncoupling**
- **Adhesives**
- **Grouts**
- **Sealants**
- **External Tiling Systems**

The perfect finish for your tiling to provide that ‘wow’ feeling for years to come.

You’re installing happiness.

With BAL Micromax3 ECO grout, you’re installing a market-leading range of grouts with anti-microbial protection.

Made with an efflorescence-free formulation, it is available in 24 consistent colours and has a range of colour-matched matt sealants for a seamless finish for your tiling.

BAL Micromax3 ECO provides major benefits over other grouts:

- ✓ Locked-on colour consistency with pigments fully blended – meaning consistent colours and no patchiness in every use, as well as allowing part-bag mixing
- ✓ Efflorescence-free formulation making primary efflorescence impossible!
- ✓ A reliable setting-time of just 2-3 hours with our rapid-hardening technology, meaning your finish isn’t delayed and eliminates risk of water staining on natural stone
- ✓ Microban® antimicrobial, non-hazardous protection against black mould and mildew
- ✓ High-yield coverage meaning more m² per bag
- ✓ Easy clean-off with less haze to make grouting easy
- ✓ Environmentally friendly, made with 25% recycled materials, fully recyclable packs and low-dust technology.
- ✓ Suitable for use in swimming pools
- ✓ Suitable in joints up to 30mm

The perfect finish, every time

With BAL Micromax3 ECO, you’re installing a grout to provide a perfect finish through its strong, flexible performance with colour consistency and protection against black mould.

BAL Micormax3 ECO has fully blended pigments meaning that all colours are locked-in. Whether you mix part bags or the full bag, the colour consistency is guaranteed with no patchiness.

Now, even easier to install, our 3rd generation Micromax technology is designed for easier application and clean-off even on textured tiles with significantly less haze after initial clean-off. There is no need to panic because while the grout will firm up quickly in the joint, it will still be easy to clean from the surface of the tile.

Suitable for use with all tile types, **BAL Micromax3 ECO** is formulated with rapid-hardening chemistry to ensure the water is maintained within the grout, virtually eliminating the risk of water staining, even on natural stone.

As a lower dust formulation it also means less mess on-site and improved conditions when installing.

Let’s get to it.

Stand-out performance every time

With **BAL Micromax3 ECO**, you’re installing enhanced product performance, going above and beyond previous generations of Micromax grout.

BAL Micromax3 ECO has improved longer-lasting Microban® protection against black mould and mildew, meaning the joints will not become unsightly over time.

The new technology also ensures anti-shrinkage and anti-cracking performance, for perfect smooth joints, even up to 30mm.

Its efflorescence-free formulation protects against unsightly, patchy discolouration and makes primary efflorescence impossible. Couple with the rapid-drying technology meaning your finish isn’t delayed and eliminates risk of water staining on natural stone.

Your work will have longevity and remain beautiful for year, meaning your customers will continue to have that ‘wow’ feeling from your work for years to come.

You’re installing sustainability

Developed with the environment in mind, with **BAL Micromax3 ECO** is a sustainable solution for any installation. **BAL Micromax3 ECO** is a non-hazardous product, with a lower dust formulation.

Formulated with more than 25% recycled materials and sold in 100% recyclable packaging, means sustainability is in-built to the product design.

An OPC-free formulation makes for a reduced carbon footprint, while it has EC1 Plus designation: the best classification in the EMICODE system for products that are very low in emissions. The materials awarded this label comply with very stringent health and environmental requirements.

The ability to part mix grouts with no loss of colour consistency or performance ensures less waste on-site, while a 2-year shelf life for 2.5kg and 5kg packaging means less product wastage at source

A seamless finish

With **BAL Micromax3 ECO** you get a full range of over 20 colour tones to match or complement any tile type or design.

Now our **BAL Micromax3 ECO** grouts can also be used with our range of colour-matched BAL Micromax Grout-Effect Sealants, which unlike other silicones provide a colour-matched, matt-textured finish so they look totally seamless next to **BAL Micromax3 ECO** grout.

BAL Micromax Grout-Effect Sealant is also formulated with long-lasting Microban® antimicrobial protection against black mould – which provides market-leading protection for hygiene areas.
